

ICAMES 2023 INVITATION LETTER

(International Cultural and Academic Meeting of Engineering Students)

When: 2nd - 9th May 2023

Where: Bogazici University, Istanbul, Turkey

Fee: FREE!

Webpage: <http://www.icames.boun.edu.tr>

Application Form: <https://forms.gle/j7214YHuCVxEHa2k8>

Application Deadline: March 12th, 2023

Dear Sir / Madam,

If you are an undergraduate student or an advisor working on an engineering project and if you want to discuss your project with your fellow students and professors from all over the world and participate in social and cultural activities without paying any fee, Then you should apply to ICAMES 2023!!!

What is ICAMES?

ICAMES (International Cultural and Academic Meeting of Engineering Students) is an international, academic and cultural project competition that is held in May annually, 27th this year, by the Engineering Society (ENSO) of Bogazici University. Its academic committee is formed by the Dean of the Faculty of Engineering and an advisor from each Engineering Department of Bogazici University. We do not only have an academic side, but also various activities introducing different countries and cultures to each other during the week. In addition to the project presentations, social and cultural activities such as the "Cultural Night" about the participating countries, are included in the ICAMES program as well.

ICAMES 2023 (2th - 9th May 2023)

This year's main concept is "Smart Cities". You are expected to handle the aspect(s) of a city within this concept and come up with a project to improve and/or make it more common. These aspects may include, but not restricted to, structural, infrastructural, operational, organizational and mobility related changes or improvements in cities. Your project can incorporate one or more subtopics related to improvements/changes in cities and it doesn't need to be completely topic related, but is encouraged to make a connection with the concept. You must also approach the concept with engineering methods while constructing your project.

#Fee:

→ All the expenses of the participants are covered by the Organization Committee of ICAMES 2023 including food, accommodation, entertainment, etc. except the travel expenses.

#Prerequisites:

→ Your project should deal with engineering techniques and must be prepared by undergraduate students.

#In ICAMES you have the opportunity to:

- Meet engineering students from all around the world
- Meet new cultures
- Introduce your project to the academic board
- Have lots of fun and memories
- Get to know beautiful Istanbul from the impressive Bosphorous
- Do all the activities without paying any fee

#How to apply:

→ To participate in ICAMES, you should just fill out the [Application Form](https://forms.gle/j7214YHuCVxEHa2k8)
